

Dear Customers and Business Partners,

It is with profound shock and deep sorrow that we have to inform you of the tragic passing of our Managing Director and Shareholder,

Philipp Steinmayr
(13 August 1993 – 11 July 2026)

Philipp lost his life in a tragic accident on 11 July 2026.

His sudden passing has deeply affected his family, our employees, and the entire ESA community.

On 1 February 2022, Philipp assumed the management of the company from his father, Bernhard Steinmayr, thereby taking responsibility for the family business in its second generation. With his exceptional empathy, sound judgement, and entrepreneurial vision, he successfully continued ESA's development while introducing important new initiatives for the future.

Despite this profound loss, the continuity and operational capability of our company remain fully assured. Until further notice, we will return to a long-established and proven management structure. Bernhard Steinmayr will once again assume the position of Managing Director, including all associated legal responsibilities. In my capacity as a member of the management team and authorized signatory, I will continue to be responsible for the operational management of the company.

Your established contacts will remain available to you as usual. All ongoing projects and support services will continue with the same reliability and commitment. Should any delays arise as a result of these exceptional circumstances, we kindly ask for your understanding.

On behalf of the Steinmayr family and the entire ESA team, we sincerely thank you for your condolences, your trust, and your continued support of our company during this difficult time.

With deepest sympathy,

GERHARD WEISENGRUBER
Member of the Executive Management Team
Holder of Prokura
